

DREDGE PARTS

HollandMT designs and supplies first class fabricated dredge parts for newly built dredgers, equipment upgrades and as replacement or wear part. Dredge parts can be engineered by HollandMT in accordance with customer's specification or the design can be owner furnished. Construction of parts is outsourced to first class fabrication yards, foundries and machine shops in Europe, China, South Africa, Brazil and USA.

HollandMT manages the complete process from drawing to final product, including quality assurance cost effective manufacturing of new casting patterns or moulds for rubber seals etc.
